

Business Technology Forum

Statement of Purpose: The Business Technology Forum reports to the Executive Committee. Its primary purpose is to increase member awareness and understanding of how technology may be utilized in various aspects of real estate business activities. The Forum allows members to share and seek information and learn of technological applications that serve the needs of brokers as well as salespersons.

List of Programs:

Business Technology Forums open to the Membership

Strategic Plan Objectives:

- Communicate technology related issues to members (i.e. spam filtering, viruses, wireless email, tips and techniques.)
